Meet Alice Curry

On July 9, 2011 Alice Curry passed away from a battle with lung cancer. Alice never smoked a day in her life and there is no history of cancer in her family. Alice Curry worked in many smoke-filled environments throughout her career. Secondhand smoke kills 1,100 Hoosiers every year, Hoosiers just like Alice Curry. We have started a campaign, to honor Alice and her dedication to making sure that everyone has the right to breathe clean air.

Our [print ad](#) is running in the Indianapolis Business Journal, in honor of Alice Curry. Please take a moment to view the ad.

Are You Alice?

Please share your personal story of how secondhand smoke has affected you or someone you know. This could be anything from your hair smelling like smoke after a night out with friends, to an asthma attack, to a serious health condition. Please tag [@SmokeFreeIndy](#) and use the hashtag #IAMAlice when sharing your story on [Twitter](#). You can also share your story on our [Facebook Page](#).
